Shaping our
university
together

Student Representation
Technical University of Munich

Overview

- The student council
 - Who are we?
 - What do we do?
 - How can you join us?
- COVID19 vs. studying
- Reform of the Bavarian higher education act – What is it about and why is it important?

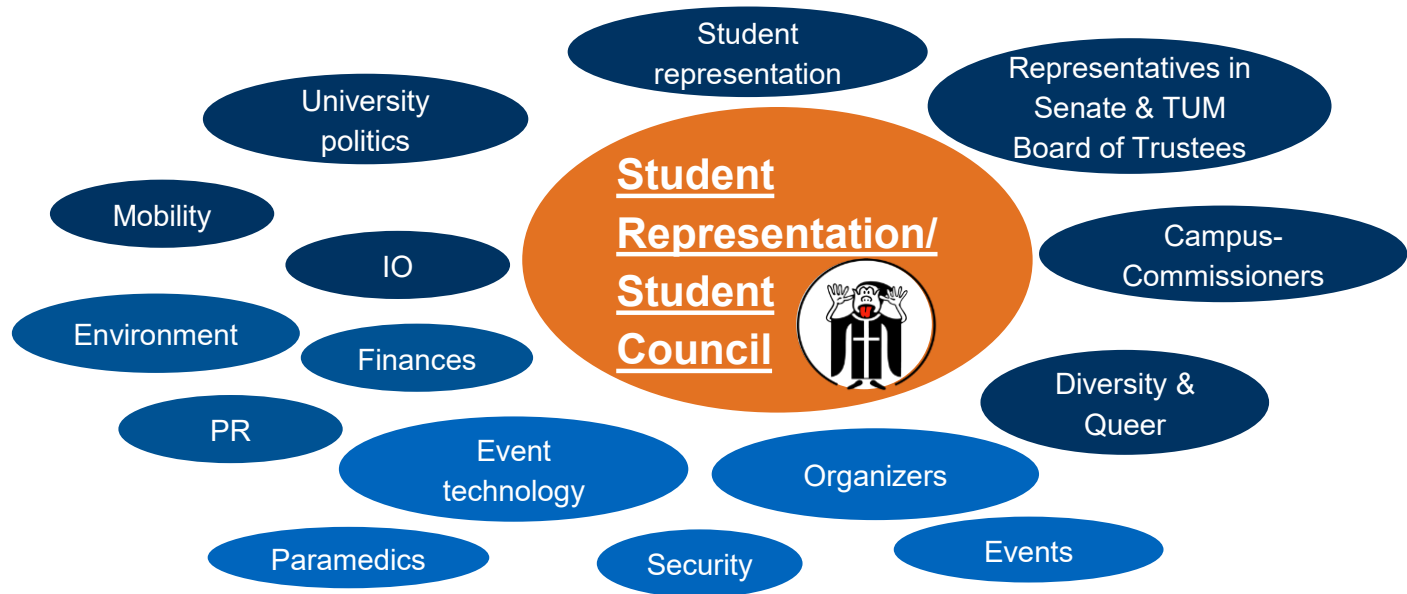

Who are we?

- **Students actively working for you**
- **From different semesters, study programs and departments**

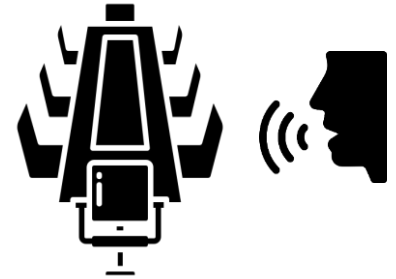

Who are we?

- We represent your interests toward the university

Representing your opinions

Shaping education

- Creation of new study programs
- Reforming existing study programs
- Fair conditions
- Digitalising courses

TUM Skills Excellence Program

COVID-19 update

- Bavarian Parliament will decide on the extension of measures from summer term 2020.

This includes:

- Semester not counted in standard period of study.
- All semester-based deadlines postponed.
- Maximum funding period for BAFöG increased.

Also:

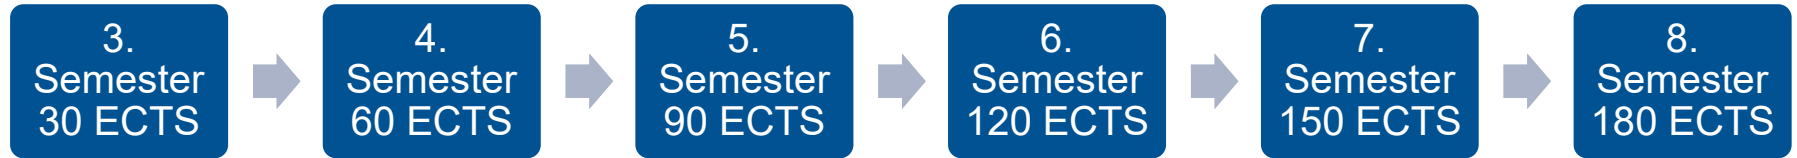

- Application for interim financial aid open until 03/2021, more information at www.ueberbrueckungshilfe-studierende.de

COVID-19 update

If winter term doesn't count into the standard period of study:

- Academic progress hurdles postponed by one semester. (see below)
- Departments to make decisions about GOPs.

Academic progress hurdles before: (Bachelors)

After:

Is the university open?

- Libraries: Limited working spaces with prior booking online.
- StudiTUM closed, preparations for opening underway, but no opening date yet.
- Lab courses, other practical work in presence.
- Canteens only to-go.

TUM Skills Excellence Program

Target group: Students finished with their masters courses early winter 2020/21

Additional qualifications after masters degree → TUM Skills excellence certificate

Duration: up to 2 semesters

30 ECTS total, split up into 10-20 ECTS in modules from current degree program, 10-20 ECTS in modules from other degree programs.

More info here: <https://www.tum.de/studium/studienabschluss/tum-skills-excellence-programm/>

Exams

- Exam formats should be fixed within the next few weeks.
- Exam dates must be announced 14 Days in advance, exam formats four weeks in advance.
- Exams possible on campus or online.
- Participation in online exams on voluntary basis.
- Alternative exam in presence must be offered within the same semester.
- Offer of alternative online exam up to examiners.

Online exams

- You will be informed about the use of your personal data.
- A test run should be offered.

- Technical difficulties during an exam → exam will be ended and attempt will not be counted
- This does not apply if you are at fault for the technical issues. (Burden of proof on the university)
- Spoken exams more flexible → can be continued after technical issues

Reform of the Bavarian higher education act

Reform of the Bavarian higher education act

- Last regulatory reform took place in 2006.

Bavarian “Hochschulgesetz”:

- Defines the purpose of higher education institutions.
- (Representation in) committees → possibilities to contribute
- Conditions for students, studying, teaching, ...

Reform of the Bavarian higher education act

- Draft will follow in early 2021
- For now: Explanatory Letter detailing key issues for reform.

Important aspects:

- More freedoms
- New definition of Goals of a university to include sustainability, equality, internationalization and digitalisation.
- Possibility of requiring fees for non-EU-citizens.
- Deregulation: fewer structural requirements → *future of student participation?*
- Participation in the founding of companies.
- Possibility of student representation at state level.

How can I join you?

- Talk to us, for example in the Q&A session
- Team meetings every two weeks
- All meetings and other events at sv.tum.de
AStA → Termine
